or until settleles of general utility, who are unable to make independent arrangements for introducing their inventions, by an equitable arrangement with them for their rights by purchase, out and out or by a tariff on the articles manufactured and sold. The inventive genius of this curutry has long called for an Institution of this kind. The himself of this so metric, that thousands of this are invented, many of which would be really useful to the emmanity, but which are never suturdaced, because the Inventors of them have no means to carry them out.

The Capital of this Company will be devoted to to development of really useful inventions. The Company have a Committee on Patents, whose duty it is to puss upon all applications, and from their large experience is such matters. Inventors have a security that their inventions will not be mirjudged, and the high character of the partice composing that Committee, is a sufficient guaranty that plains and specifications may be submitted before patents are applied for, without any risk of advantage being taken of this circumstance, and when desired to do so, the Company will take out patents for others, securing for the inventor all his invention that is patentable.

This Company respectfully invites inventors to July.

Given under our hands at said Land Office, on the 75th day of March, 1859.

THE AMERICAN SMOKER,
Consisting of a great variety of unique and
beautiful patterns of Cigar Tubes; also, several
varieties of Fipe Tubes. The peculiarity about
these articles is that each one is arranged so as
to receive a damp sponge through which the
smoke of the burning Cuar or Tobacco has to
pass on its way to the mouth. This damp sponge
not only cools the smoke, but extracts from it
the nectine oil, the poisenous property of the
Tobacco, which renders the breath less affensive.
Smokers will find, in the use of these Tubes, a
luxury never before attained except by using the
Torkish water-jar. Their use will also greatly
promote the health of the habitual smoker, and
presurve the sweatness of the breath. promote the health of the habitual smoker, and preserve the sweetness of the breath.

THE AMERICAN CARPET HOOK.

Is a little contrivance for putting down carpets without tacks. This is a new article, which has never before been upon the market. But it possesses the merit of enabling a person to put down or take up a careet of the larges size in general use in fifteen misutes, without any injury to the floor or earpet, It is very cheapetheaper in the long run than tacks—and the great facility with which even a servant can take up and put down carpets, without to possibility of a mistake, renders it invaluable to the house-keeper.
